**This report was prepared by the Mobile Crisis Intervention Services Performance Improvement Center (PIC):**  
 Jeffrey Vanderploeg, Ph.D., Director; Eva C. Haldane, Ph.D, Data Analyst; Adora Harizaj, BS, Project Coordinator; Yecenia Casiano, MS, Project Coordinator; Jeana Bracey, Ph.D., Director; Lori Schon, Office Manager; Heather Clinger, MPH, Training Coordinator (CT Clearinghouse); Sarah Camerota, United Way of CT-211

The Mobile Crisis Intervention Services Performance Improvement Center is housed at the  
 Child Health and Development Institute

## Executive Summary

*Additional data and appendices are available online <http://www.chdi.org/publications/> or contact Jeffrey Vanderploeg, PhD, [jvanderploeg@uchc.edu](mailto:jvanderploeg@uchc.edu) for more information.*

**Call and Episode Volume:** In August 2017, 211 and Mobile Crisis received 818 calls including 568 calls (69.4%) handled by Mobile Crisis providers and 250 calls (31.6%) handled by 211 (e.g., calls for other information or resources, calls transferred to 911). This month represents a 13% increase in call volume compared with August 2016 (n=724).

Among the **566 episodes of care** generated this month, episode volume ranged from 76 episodes (New Haven service area) to 142 episodes (Hartford service area). The statewide average service reach per 1,000 children this month was 0.70, with service area rates ranging from 0.47 (Southwestern) to 0.93 (Eastern) relative to their specific child populations. Additionally, the number of episodes generated relative to the number of children in poverty in each service area yielded a statewide average poverty service reach rate of 1.22 per 1,000 children in poverty, with service area rates ranging from 0.81 (New Haven) to 2.53 (Eastern).

**Mobility: Statewide mobility was 89% this month**, 1.1% higher than in August 2016. Three of the six service areas were above the 90% benchmark this month, with performance ranging from 83.3% (Eastern) to 94.0% (Western). Mobility for individual providers ranged from 67% (Well-EMPS:Dnby) to 100% (CFGC-EMPS:Nrwk and Well-EMPS:Torr). Seven of the fourteen individual providers had mobility rates at or above the 90% benchmark.

**Response Time:** Statewide, this month **91% of mobile episodes received a face-to-face response in 45 minutes or less**, which is 4% higher than August 2016 (87%). All six service areas were above the 80% benchmark this month, with performance ranging from 83% (Western) to 100% (Southwestern). Thirteen of the fourteen sites met the benchmark of at least 80% of mobile responses provided in 45 minutes or less. In addition, the statewide median mobile response time was 29 minutes.

**Length of Stay (LOS):** Statewide, among discharged episodes, zero **plus stabilization follow-up episode exceeded 45 days**. This month the statewide median LOS for discharged episodes with a crisis response of plus stabilization follow-up was 15 days. The median LOS for discharged episodes with a crisis response of plus stabilization follow-up ranged from 11 days (Southwestern) to 22.0 days (New Haven).
