**This report was prepared by the Mobile Crisis Intervention Services Performance Improvement Center (PIC):**

Kayla Theriault, Data Analyst; Aleece Kelly, MPP, Senior Data Analyst; Yecenia Casiano, MS, Project Coordinator; Kellie Randall, Ph.D., Director; Carrie Shaw, Administrative Assistant; Jill Perreault, MS, Training Support Specialist (Wheeler Clinic); Sarah Camerota, LICSW, 2-1-1 EMPS Program Manager (United Way of CT-2-1-1); Jeffrey Vanderploeg, Ph.D., CEO

The Mobile Crisis Intervention Services Performance Improvement Center is housed at the  
Child Health and Development Institute of Connecticut, Inc.

## Executive Summary

Additional data and appendices are available online <http://www.chdi.org/publications/> or contact Jeffrey Vanderploeg, PhD, [jvanderploeg@uchc.edu](mailto:jvanderploeg@uchc.edu) for more information.

**Call and Episode Volume:** In April 2019, 2-1-1 and Mobile Crisis received 1,976 calls including 1,454 calls (73.6%) handled by Mobile Crisis providers and 522 calls (26.4%) handled by 2-1-1 only (e.g., calls for other information or resources, calls transferred to 9-1-1). Of the 1,454 calls, one was excluded from the episode count due to missing disposition information. This month showed a 10.7% increase in call volume from April 2018 (n=1,785).

Among the **1,453 episodes of care** this month, episode volume ranged from 180 episodes (Eastern) to 353 episodes (Hartford). The statewide average service reach per 1,000 children this month was 1.8, with service area rates ranging from 1.2 (Southwestern) to 2.2 (Hartford) relative to their specific child populations. Additionally, the number of episodes generated relative to the number of children in poverty in each service area yielded a statewide average poverty service reach rate of 3.5 per 1,000 children in poverty, with service area rates ranging from 2.5 (Southwestern) to 4.7 (Eastern).

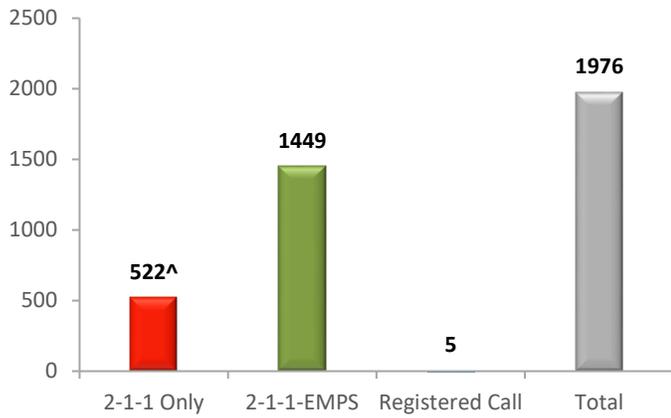

**Mobility: Statewide mobility was 92.6% this month;** similar to the rate in April 2018 (92.5%). Five of the six service areas were at or above the 90% benchmark this month, with performance ranging from 89.5% (Central) to 95.8% (Western). Mobility for individual providers ranged from 87.8% (CHR) to 96.6% (Wellmore: Torrington). Twelve of the fourteen individual providers had mobility rates above the 90% benchmark.

**Response Time:** Statewide, this month **87.0% of mobile episodes received a face-to-face response in 45 minutes or less**, which is an increase from the rate in April 2018 (84.2%). All of the six service areas were above the benchmark of 80% of mobile responses provided in 45 minutes or less, with performance ranging from 82.8% (Eastern) to 93.8% (Southwestern). Eleven of the fourteen sites met the 80% benchmark. The statewide median mobile response time was 29.0 minutes.

**Length of Stay (LOS):** Statewide, among discharged episodes, **0.0% of the 234 plus stabilization follow-up episodes exceeded 45 days**. This month the statewide median LOS for discharged episodes with a crisis response of *plus stabilization follow-up* was 9.0 days. The regional median LOS ranged from 7.5 days (Hartford) to 21.0 days (New Haven).
